# Why Choose HelpLine?

### A Family-Owned Maine Company

Since 2002, Home Support Services, LLC has helped older adults stay safe and independent in their own homes.

### Local Service. Personal Attention.

From our Windham office, we help you choose your system, learn how to use it, and get support when you need it.

### Professional Monitoring, Day and Night

Connect with a monitoring operator 24 hours a day, 7 days a week.

### Options That Fit Your Life

Choose a system for use at home or at home and away, with pendant and wrist-worn options available.

# How HelpLine Works

## 1 Press Your Button

When you need help, press the button on your pendant or wristband.

## 2 Speak With an Operator

Your system connects you to a monitoring operator who speaks with you through your system's speaker.

## 3 Get the Help You Need

The operator arranges appropriate help, which may include emergency responders, a family member, or a neighbor.

**Help is available 24 hours a day, 7 days a week.**

# Choose the Right System

## For Use at Home

### Mytrex MXD

Connects through your landline telephone.

### Mytrex LTE

Uses a cellular connection—no landline needed.

Both offer a choice of pendant or wristband.

## For Use at Home and Away

Belle S

Belle X2

Belle W

### Belle S and Belle X2

Pendant-style medical alerts worn around your neck.

### Belle W

A wrist-worn medical alert for those who prefer a wristband.

## We'll Help You Choose

Call our Windham office for help finding a system that fits your needs and daily routine, or visit our website at helplinemedicalalert.com.

**207-892-1454**

# Getting Started Is Simple

## 1 Tell Us What You Need

Call our Windham office. We'll discuss where you'll use your medical alert and which style you prefer.

## 2 Choose Your System

We'll explain your options, answer your questions, and review pricing so you can make an informed choice.

## 3 Get Set Up With Confidence

We'll help you get your system ready and explain how to use it, test it, and call for help.
